

Zoo 4234, 4234L - General PARASITOLOGY

General Information - Fall 2016

READ AND KEEP THIS SHEET FOR FUTURE REFERENCE

1. Two courses: This course is now being given as a lecture course (ZOO 4234) separate from the lab course (ZOO 4234L). These courses are corequisite.
2. Instructor: Paul Sharp PhD, Office OE 229, Office hours: Tues. (3:45-4:45PM)
You may e-mail me at psharp@fiu.edu. Thurs. (5:00-6:00PM)
3. Text for ZOO 4234: Roberts and Janovy. *Foundations of Parasitology*, 8th ed. or 9th ed.

Course Objectives: Students will learn modern concepts of biology, development, immunology, and pathology of animal and protozoan parasites.

4. Attendance: Attendance will not be recorded; however, the increased difficulty you will experience on exams after you miss lectures is a stiff penalty. **PLEASE BE ON TIME!**
5. Hour exams in ZOO 4234:

Mechanics: The hour exams will be held in the regularly scheduled lecture periods (see lecture schedule). Format may include multiple choice and short answer. You will be expected to recall material learned earlier in the semester to answer more challenging questions as the information builds from one exam to the next.

Emphasis: The hour exams will stress lecture and reading assignments. Materials covered in lectures will be emphasized, but some (probably few) questions on material not covered in lecture will be taken from the book and/or journal articles.

Other helpful information: The questions will call for specific knowledge. You should take care to **read the question carefully** and to **answer the question asked**. Note carefully that considerable memorization will be necessary in preparation for the exams, but you will also be tested on your ability to think and to use the information you have memorized.

6. Determination of the course grade:
All grades are based on a 100 point scale (90% = A, 80% = B, 70% = C, etc.)
No Rounding - No curve - No dropped exams - Non-negotiable
 - Three hour exams each worth 24% totaling 72%
 - Cumulative final exam worth 28%

7. Final exam in ZOO 4234: The final exam will be generally similar in format and emphasis to the hour exams. Approximately 1/4 of the final will cover the last 1/4 of the course, and 3/4 will be on the first 3/4.
