Every year, Dr. Glaser's donation helps support a week-long visit of a distinguished scholar who gives a series of lectures to faculty, students, and the public. In the past decades, more than twenty distinguished speakers have been participants in this program. The Glaser seminar enriches the intellectual life of Miami. For our previous Glaser speakers, please check: <https://fiuglaser.blog/>

This year, the speaker is Dr. Mario Capecchi (<http://capecchi.genetics.utah.edu/>), a world-famous scholar at University of Utah. He is the best known for his pioneering work on the development of gene targeting in mouse embryo-derived stem (ES) cells.
